

Lightweight Single

Static heating

Product description

ScanBox Lättvikare is manufactured for the transport of hot food according to the GN 1/1 standard. The box is stackable and an excellent addition to ScanBox's other range of products and can be stably placed inside the top frame of the boxes. At the bottom is a heating element for effective food warming.

The box is made of EPP and has a reinforced front profile and sturdy handles for carrying. ScanBox LättvikareE can withstand temperatures from -40°C to $+120^{\circ}\text{C}$, has good insulation capabilities and is easy to clean.
