# Stackable Box Single
Neutral

Product description

Stackable box is made to hold and transport hot or cold food easily and safely. The box is designed with ScanBox ExP construction that combines optimized insulation performance with high operational reliability and environmentally conscious choices.

The box can be pre-cooled in refrigerated rooms. Extend chilled storage time by easily retrofitting runners for eutectic plate for further temperature retention. ScanBox Portable Line has capacity for 4 containers in the GN 1/1 standard.

Equipped with excenter lock, solid door, removable U-guide rails with 80 mm spacing, black RAL 9005, as standard. The equipment can be easily adapted as required through the available extra options.
